Graduate Student Newsletter - August 25, 2023

Dear graduate students,

We hope you are having a wonderful summer and look forward to seeing you soon. Our regular Division of Graduate Studies newsletter provides students, faculty, and staff with graduate studies news, opportunities, and more.

Resources

NEW Division Research Webpage & Faculty Research Database

The Division website has a new [Research](#) page where you can find information about graduate student external fellowships and awards, UO research funding opportunities, the NSF-GRFP, Graduate Research Forum, research groups for students of color and women in STEM, and many more graduate student research support.

We want to draw your attention to one specific resource on the page, the [Faculty Research Database](#). This is a one-of-a-kind database that includes the names and contact information of faculty conducting research with underrepresented groups in the United States and communities around the world. Use this list to find mentors, dissertation and thesis chairs, and collaborators to advance your research. Check out the new Research page today and don't forget to bookmark the Division's website.
